

CR 116

High-performance and very tough abrasive paper for high operational demands

Product Benefits

- High stock removal rates especially on stainless steel and high-alloyed steel
- Very long tool life especially on hard wood
- Low grinding temperatures
- Uniform surface pattern without staining

Applications

- Flat grinding of thick and press plates out of stainless steel and high-alloyed steel on stroke grinding and wide belt grinding machines
- Flat sanding of doors and window frames out of hard wood on stroke and wide belt sanding machines

Product Structure

Type	11623
Grain	Ceramic grain
Bonding	Resin
Backing	F-weight paper
Coating	closed
Grit range	+ 60 - + 180, + 240

Forms of Delivery

Abrasive belts

Wide belts

Metal

Wood

Lacquer

Composite

Glass and Ceramics

Stone

- Very suitable
- Suitable
- Not suitable
