

VC 154-Longlife VEL

Light and velour-backed aluminium oxide abrasive paper with active additives

Product Benefits

- Flexible, wear-resistant Latex paper backing assures very good adaptations to contours
- Low clogging with sanding dust due to semi-open coating and additional coating with additives
- Consistent stock removal rates and consistent roughness values during the whole grinding process

Applications

- Sanding lacquer of autobodies and attaching parts (cataphoretic painting/filler/topcoat), e.g. automotive industries
- Sanding off old lacquer coatings and preparation for new lacquering (primer and filler), e.g. aircraft industry and waggon construction
- Sanding off old lacquer coatings and initial sanding GRP cover and gel coat, e.g. Yacht & Boat industry
- Sanding off old lacquer coatings, intermediate sanding primer and filler, form sanding filler, matting lacquer, sanding transition points, rust and stone-chipping, e.g. automotive refinishing

Product Structure

Type	15477
Grain	Aluminium oxide
Bonding	Resin, with active additives
Backing	B-weight paper, velour-backed
Coating	semi-open
Grit range	P 80 - P 1500

Forms of Delivery

Strips

Triangulars

Discs

Metal

Wood

Lacquer

Composite

Glass and Ceramics

Stone
